1. Find the sum or difference by working with each place value.

   a. \[ 427 = 400 + 20 + 7 \]
   \[ + 342 = 300 + 40 + 2 \]
   \[ = + + = \]

   b. \[ 568 = 500 + 60 + 8 \]
   \[ - 246 = 200 + 40 + 6 \]
   \[ = + + = \]

2. Find the sum or difference by separating each number by place value.

   a. \[ 652 = + + \]
   \[ + 237 = + + \]
   \[ = + + = \]

   b. \[ 864 = + + \]
   \[ - 520 = + + \]
   \[ = + + = \]

3. Find the sum or difference by separating each number by place value (make sure to regroup).

   a. \[ 338 = + + \]
   \[ + 457 = + + \]
   \[ = + + = \]

   b. \[ 419 = + + \]
   \[ - 243 = + + \]
   \[ = + + = \]

4. Fill in the boxes to add 376 to 124.

   ![Addition Diagram]

5. Fill in the boxes to subtract 445 from 672.

   ![Subtraction Diagram]

6. Adjust the numbers to find the value of the expressions.

   a. \[ 598 + 347 = 600 + \_ = \_ \]
   b. \[ 265 + 402 = \_ \]
   c. \[ 537 - 302 = \_ - 300 = \_ \]
   d. \[ 486 - 299 = \_ \]
