1. Partition and label the number lines to represent each fraction.

   a. $\frac{3}{8}$
   b. $\frac{2}{3}$
   c. $\frac{3}{4}$
   d. $\frac{4}{6}$

2. Label the number lines and identify the fractions they represent.

   a. 
   b. 
   c. 
   d. 

3. Shawna, Mandeep, and Myank are going on a hike. The hike is long, so they want to take three water breaks on the hike, evenly spaced between the start and finish. Partition and label the number line to model this situation using fractions on a number line.
