1. Write each ratio as a percent, a fraction, and a decimal.

   a. 26 out of 100
   b. 87 out of 100
   c. 5 out of 20
   d. 10 out of 25
   e. 1 : 2
   f. 3 : 5

2. What is 26% of 50? Explain your solution.

3. Melissa is working in her garden. She sees that 20 plants have grown, but she planted 25 seeds. What percent of seeds germinated? Show your work. Note: Germinated means when a seed successfully grows into a plant.

4. There are 120 students at school today. The principal says the attendance is 80% of all students who are enrolled at the school. How many students are enrolled at the school? Explain your solution.
